MEET JIM MARSH — of Chicago, Illinois

— By George E. Lenington

While attending the 1961 Chicago convention, we had the misfortune to have a major breakdown of our car. In addition to the considerable expense involved, we were faced with the likelihood of having to remain in Chicago an extra day in order to get the repairs made.

That was the situation when I met Jim Marsh. When Jim learned of our trouble, he got in touch with his own personal repair man and talked him into fixing our car on the week-end, when he was normally closed, and we were able to leave for Kansas City right on schedule!

After we had taken the car to the repair shop, Jim asked if I would like to stop by his home and see his daylilies — and I said I would, of course. However, when I saw the kind of daylilies he had growing in his back yard, I got one of the biggest thrills of the entire convention.

First, I saw a large, beautiful 8 inch melon with about 40 buds on the scape (M60-40, now named Prairie Champ) and then, close by, another beauty with an unusual lavender-purple eye (M59-E1, now named Prairie Beauty). Jim then showed me his pinks - large, wide-petalled, real pinks with green throats - and then his vivid reds, also with green throats. In a slight state of shock I asked, "Do you sell any of these?" and he replied, "No, but I'm thinking of getting someone to introduce them for me". I quickly said, "Well, you don't need to look any farther. Lenington Gardens will be mighty proud to introduce daylilies like these for you."

The more I learn about Jim Marsh, the more pleased I am to be associated with him. To many members of the Central States Dahlia Society, he needs no introduction, since for many years he exhibited prize-winning dahlias at all of the large mid-western dahlia shows and he served the Society in an official capacity for many years. About the time we were getting the Hemerocallis Society started, he was winning a flock of awards with his dahlia hybrids. From 1947 until 1952, five of his introductions won a total of 24 American Home Achievement medals, with his Pirate Treasure getting ten of them. Ending some 20 years of endeavor with dahlias by serving two terms as President of the Society (1953-1954), Jim then turned his attention to the breeding of iris and daylilies. To say that he has been successful would certainly be an understatement. His orange colored iris, Prairie Blaze, won a 1962 H.C. award. The winning of A.H.S. Junior Citations for both Prairie Beauty and Prairie Champ, in 1962, will be only the first of many awards that he will be adding to his amazing collection of ribbons and medals.

WE ARE PLEASED TO PRESENT THE FOLLOWING MARSH INTRODUCTIONS FOR 1963

- PRAIRIE BEAUTY** (Marsh 59-E1)--A 6" ruffled, very light melon with a wide lavender-purple eye. Segments wide and overlapping. Sunfast. J. C. 1962. M 32" SE.....\$25.00

Zelda Stout --Double yellow. Best Stout double we have grown. M 34" EV.....	\$10.00

In addition to the varieties listed in this catalog, we grow several hundred varieties that cannot be listed because of insufficient stock. Mostly they are recent introductions by top hybridizers - purchased for use in our own hybridizing programs. If you have a variety in mind that is not listed here, please write to us. Quite possibly we can supply it at an attractive price.

GARDEN CLUBS — and other groups are invited to visit and tour our plantings, which cover more than two full acres. When in full bloom they make a beautiful sight, unequalled in this area. Study this superior perennial in all its variations of height, color and size. Grass paths add to the pleasure of your visit - especially after a rain.

Please make advance arrangements for your visit so that we can have someone available to answer your questions. Make your tour one of pleasure and education and please do not ask us to dig orders for plants while the group is here.

SUGGESTION: Combine your visit to **LENINGTON GARDENS** with a picnic in famous **SWOPE PARK**, which is only a half mile west of us.
